Website: [hitham2496.github.io](#)  
ORCID: [0000-0002-6183-5875](#)

## BIO

Enthusiastic and hard working **software developer**, **data scientist** and **Ph.D. researcher** in theoretical particle physics with well-honed **academic**, **technical**, **professional** and **interpersonal skills** including a proven ability to **communicate** complex scientific concepts to **diverse audiences**.

## SKILLS

### TECHNICAL SKILLS

Experienced:

C/C++ • Python • CI/CD • Git • Linux/Unix • Bash/Shell •  $\LaTeX$  • Data Science • Software Development • High Performance Computing • Statistical Analysis • Primary and Secondary Databases • Data Visualisation • Docker & Containerisation • Multithreading / Multiprocessing • Documentation (sphinx, doxygen)

Familiar:

Machine Learning • HTML • CSS  
JavaScript • Fortran • SQL • XML • Wolfram Mathematica

### PROFESSIONAL & INTERPERSONAL SKILLS

Science Communication • Confident Presentation • Management • Leadership • Strong Work Ethic • Time Management • Teamwork • Problem Solving

### LANGUAGES

English (native)  
Arabic (fluent)  
French (highly proficient)

## AWARDS

### ST. CUTHBERT'S SOC., DURHAM UNIVERSITY

- New Student of the Year (2015).
- Ranald Michie Prize (2016).
- Principal's Award for Outstanding Contribution to College Life (2019).

## INTERESTS

- Research
- Science Outreach
- Machine Learning and Data Science
- Computational Physics and Biology
- Climate Science
- Informatics and Bioinformatics

## EDUCATION AND RESEARCH EXPERIENCE

### PH.D. CANDIDATE IN THEORETICAL PARTICLE PHYSICS

IPPP, DURHAM UNIVERSITY

Oct 2019 - Present (thesis submitted: 31/05/2023)

Qualifying examination results: 99.5%

- **Developing software** implementation of a merging procedure for **Monte Carlo** simulations of particle collisions at the LHC.
- Using **C++** to develop applications for use on **high performance computing** systems following a **test-based** approach.
- Working in the **Linux/Unix** environment and with **version control** systems in **GitLab**, using **continuous integration** to streamline the development process.
- Using **Python** to interpret **data structures** in predictions made with High Energy Physics (HEP) software and perform **statistical analyses** of the results.
- Displayed strong **management** and **organisational** skills in **organising conferences** and in **teaching** undergraduate students in **physics** courses and teaching postgraduate students in **data science** and **high performance computing** courses.

### M.SCI NATURAL SCIENCES IN MATHEMATICS AND PHYSICS

DURHAM UNIVERSITY

Oct 2015 - July 2019

Classification: First Class Honours

Thesis: *Jet Multiplicity Measurements at the LHC*

- Integrated Masters degree in **mathematics** and **physics**, specialised into **theoretical** and **computational particle physics**.
- Topics include: **Numerical Analysis**, Probability and **Statistics**, Partial Differential Equations, **Analysis in Many Variables**, Complex Analysis, **Quantum Computing** and Optics, Quantum Field Theory, Condensed Matter Theory.
- **Awarded** one month studentship at the IPPP, Durham (Jul 2018 - Aug 2018) producing predictions for Higgs boson production at the LHC with **Monte Carlo** event generators.
  - Produced sophisticated tools in **Python** to **pre-process** the data as **images**.
  - Produced simple unsupervised **machine learning** analysis in **Python** (w/ **sklearn**) to classify the production mechanisms of the Higgs.

## SELECTED PRESENTATIONS

### PROFILING APPLICATIONS IN C/C++ AND PYTHON

OCT 2022 | IPPP COMPUTING SEMINAR SERIES, DURHAM UNIVERSITY

Presentation Material Available Online

### ALL-ORDER MERGING OF HIGH ENERGY AND SOFT-COLLINEAR RESUMMATION

AUG 2022 | ISMD 2022, PITLOCHRY, SCOTLAND

Presentation Material Available Online

### PYTHON PROJECTS AND UNIT TESTING

FEB 2022 | IPPP COMPUTING SEMINAR SERIES, DURHAM UNIVERSITY

Presentation Material Available Online

### DEBUGGING C++ WITH GDB

NOV 2021 | IPPP COMPUTING SEMINAR SERIES, DURHAM UNIVERSITY

Presentation Material Available Online

## SELECTED PUBLICATIONS

### HEJ 2.2: W BOSON PAIRS AND HIGGS BOSON PLUS JET PRODUCTION AT HIGH ENERGIES

SUBMITTED MAR 2023 • SciPost PHYSICS CODEBASES • PREPRINT: [ARXIV:2303.15778](#)

### HIGH ENERGY RESUMMED PREDICTIONS FOR THE PRODUCTION OF A HIGGS BOSON WITH AT LEAST ONE JET

SUBMITTED OCT 2022 • JOURNAL OF HIGH ENERGY PHYSICS • DOI: [10.1007/JHEP03\(2023\)001](#)

# EMPLOYMENT AND SUPPORTING EXPERIENCE

## PRESIDENT OF YTF22 CONFERENCE ORGANISING COMMITTEE

IPPP, DURHAM UNIVERSITY

Sept 2022 - Jan 2023

- Led the **organisation** of a **hybrid conference** of **~80 in-person** and **~40 online** attendees for early career researchers from around the UK.
- Displayed strong **organisational** and **management** skills in **directing a committee** of 10 for the months before and after the conference.
- Secured **funding** amounting to over 5,000 GBP from several sponsors including the Institute of Physics and other **academic** and **corporate institutions**.
- Ensured smooth running of the conference by **managing the available time** to overcome **logistical** hurdles well in advance of the conference and oversaw the **publicising** of the event to other institutions.
- Gathered experience producing **risk assessments** and taking **health and safety** precautions for large events.
- Co-developed conference **website**, which is hosted by Indico

## ORGANISER OF IPPP COMPUTING SEMINAR SERIES

IPPP, DURHAM UNIVERSITY

Jan 2022 - Present

- **Co-organised** internal speakers for the IPPP computing club seminar series on interesting topics related to and outside the scope of research at the IPPP to an audience of **postgraduate students**, **postdoctoral researchers** and **senior academics**.
- Gained **logistical** experience in hosting regular events in the work environment (e.g. room booking, **risk assessments**, **timetabling** and liaising with speakers).
- Presented (see selected presentations above) several topics including **unit testing**, **profiling**, **debugging** during this seminar series to audiences with **diverse** backgrounds.

## TEACHING ASSISTANT

DURHAM UNIVERSITY

Oct 2018 - Present

- Employed part time by Dept. of Mathematical Sciences (2018-2019) and Dept. of Physics (2019-2023) as a **homework/examination marker** and **postgraduate teaching assistant** in: Complex Analysis (2018-19), Relativistic Electrodynamics (2019-22), Quantum Theory (2019-23), Classical Mechanics (2019-23).
- Marking role involves producing **constructive feedback** for students on their scripts and **liaising** with the lecturers to outline where students struggled such that the teaching can reflect this.
- Teaching assistant role involves preparing for workshop style lessons, demonstrating the material during the workshops (twice weekly, each with ~ 40 students) and **interacting constructively** with students to ensure their comprehension.
- **2022:** Taught **postgraduate students** in practical demonstration sessions on **data science** techniques and **high performance computing** including **OpenMP** and **MPI**.

# COURSES, WORKSHOPS AND CONFERENCES

- Courses: **Archer2** courses on **High Performance Computing** including **parallel performance** analysis with **Scalasca** (Aug 2023)
- Conference: **Parton Showers and Resummation** (Jun 2023)
- Conference: **International Symposium on Multiparticle Dynamics (ISMD) 2022** (Jul 2022)
- Course: **Introduction to Profiling with the Intel toolchain** (Jun 2022)
- Workshop: **15<sup>th</sup> Monte Carlo Net Summer School** and **Kraków School of Theoretical Physics** (May 2022)
- Course: **STFC Summer School on Data Intensive Science** (Sept 2021)

# OUTREACH AND EQUITY, DIVERSITY, AND INCLUSION

## NUFFIELD RESEARCH PLACEMENT SUPERVISOR

IPPP, DURHAM UNIVERSITY

Jul 2023 - Aug 2023

- **Principal author** and **supervisor** for two summer research placement students at IPPP, Durham.
- Produced **Jupyter** notebook project on exploring **statistics** in the context of **theoretical predictions** and **experimental data** in particle physics - hosted online at: <https://hitham2496.gitlab.io/he-pheno-nuffield/>.
- Project is due to be used for further outreach initiatives based at Durham University.

## MEMBER OF EQUITY, DIVERSITY, AND INCLUSION COMMITTEE

IPPP, DURHAM UNIVERSITY

Oct 2021 - Present

- Organised, led and participated in in-depth discussions related to **equity**, **diversity** and **inclusion** (EDI) in our department.
- Examined and interpreted **data** relevant to EDI initiatives in department and have transmitted these to other departments – including reforms for the graduate researcher selection process.
- Co-drafted an inclusive **code of conduct** to be used in future conferences in the research group.
